PRIME FOR LIFE 12 HOUR

Program Guidelines

PROGRAM

Mountain Projects, Inc. Prevention Services provides PRIME For Life as an evidence-based alcohol and drug education program for early intervention. PRIME For Life is based on objective, documented research findings, not opinion, and is based on the Lifestyle Risk Reduction Model, the Trans-theoretical Model, and persuasion theory. We provide the course in 4 sessions of 3-hours each in a small group (8-10). Instructors use a variety of methods, including interactive presentation, video, journaling, and small group discussion.

ELIGIBILITY

Anyone in need of a substance misuse early intervention education program may self-refer or be referred by anyone. If the referral is part of a deferred prosecution agreement, completion of the program may result in reduction or dismissal of a criminal charge. Please speak with your attorney or the District Attorney's Office regarding eligibility.
